EXECUTIVE SUMMARY

27 June 2008

(U) HQDA Procurement Management Review – (PMR) (U) (MCMR-AAU).

Headquarters, Department of the Army, PMR Team provided a review and assessment of the US Army Medical Research Acquisition Activity during the period of 23-27 June 2008. As part of their review, one of the categories reviewed was the USAMRMC Office of Small Business Programs.

The risk assessments defined by HQDA included low, medium and high. The USAMRMC earned a “low risk” assessment based on the review that was conducted. Essentially, 4 commendable areas were noted, 11 observations, 9 recommendations and no adverse findings. All of the noted observations and recommendations have been reviewed and addressed.

The OSBP will continue to strive for continuous improvements.
