

UNCLASSIFIED  
EXECUTIVE SUMMARY

5 February 2009

(U) The National HBCU/MI Conference (U) (MCMR-AAU).

USAMRMC actively participated in National Historically Black College and University and Minority Institution (HBCU/MI) Conference, held in Atlanta, Georgia during 2-4 February 2009. Approximately 300 senior representatives from Department of Defense, industry and academia had an opportunity to engage in meaningful dialogue and highlight on-going initiatives which translated into broadening grant and contracting opportunities for our nations HBCU/MIs.

Dr. George Ludwig was a keynote speaker and provided the captive audience with a command overview, with a particular focus on emerging military medical research and technologies and the command's successful record of grant and contract awards to HBCU/MIs.

The USAMRMC Office of Small Business Programs in concert with U.S. Army Medical Research Acquisition Activity, Principal Assistant Responsible for Contracting, Congressionally Directed Medical Research Programs and Principal Assistant Responsible for Research & Technology, continue to receive laudatory comments regarding our progressive HBCU/MI program initiatives and results.
