EXECUTIVE SUMMARY

7 April 2010

(U) Frederick Community College - Careers in Business (U) (MCMR-AAU).

The USAMRMC and Fort Detrick Office of Small Business Programs Office attended and actively participated in the subject Conference, which was hosted by Frederick Community College and the Director of Business Studies Department, Ms. Donna Lane.

This particular evening event included a panel discussion, which The Director of Contracting and PARC, Dr. Paul Michaels, gave a presentation and answered questions from the captive audience. Frederick Community College and its leadership have maintained a strong and strategic relationship with Fort Detrick and USAMRMC for many years. We continue to exchange information with the college about business, procurement and career-related opportunities within the command and installation.

Collectively, our participation and active involvement in this premier event highlights the command's long standing commitment towards supporting Institutions of Higher Education, in particular Community Colleges.
