EXECUTIVE SUMMARY

23 October 2008

(U) Preliminary FY 08 Year-End USAMRMC Small Business Metrics (U) (MCMR-AAU).

The following page depicts the “preliminary” FY 2008 Year-End command small business metrics. The “final” metrics will be updated, analyzed and staffed for the Commanding General’s information once the final edits have been processed by U.S. Army Medical Research Acquisition Activity (USAMRAA) and verified by Headquarters, Department of Army. Typically, the final edits and verification from HQDA occurs during the November or December timeframe.

Essentially, the key point to highlight is the incremental increases in FY 2008 contract dollars awarded to the various categories of small businesses in comparison to the previous fiscal years.

This information is noteworthy and represents the diligent efforts on behalf of USAMRMC’s OSBP, USAMRAA and the FDBDO. As in previous years and since 2005, these metrics are prominently posted as an internet hyperlink to the USAMRMC OSBP webpage for public viewing (<http://www.mrmc.smallbusopps.army.mil>).

Hope this information is helpful as we prepare for the 31 October SMART Procurement Conference and the 12 November Fort Detrick Alliance function in which the Commanding General, USAMRMC is scheduled to be a keynote speaker.
