EXECUTIVE SUMMARY

1 September 2004

(U) Small Business Administration Opportunities Conference (U) (MCMR-AAU).

The US Army Medical Research and Materiel Command's Associate Director, Small and Disadvantaged Business Utilization, participated in the Capital District Contracting Center and the Small Business Administration Opportunities Fair and Conference, which was held September 1, at the Fort Belvoir Officers Club. Over 200 members attended this event from the small business community. The USAMRMC Small Business Office staffed an exhibit and conducted one on one sessions with various prospective contractors throughout the day. There were approximately 30 other governmental agencies from the National Capital Region that also participated in this second annual event. This conference was designed to increase small business participation in prime and subcontracting opportunities.

The USAMRMC ADSADBU will make plans to co-host a similar event sometime in FY 05.
